Breakthrough understanding of the human condition solves human suffering & conflict at its source.

To repair ourselves and the world, we had to solve the underlying problem of our ‘good and evil’ conflicted HUMAN CONDITION.

And that’s what Australian biologist Jeremy Griffith has done! His scientific breakthrough finally unravels the mystery of human behaviour—meaning EVERYTHING in human life can now be

Several friends and I are reading, studying this book "Freedom" by Jeremy Griffith. Watching the Videos. We are so excited to understand this approach to the human condition. I was previously a Baptist Minister and Christian for over 50 years, but left all of that behind me about 10 years ago. I had been moving toward this philosophy or understanding for some time but did not know or understand the dichotomy of the the human condition in these scientific terms, It seems so clear to me now. Jeremy's book presents a better understanding of the "fall" or eating of the tree of knowledge of good and evil. It all makes sense. That as humanity evolved from just instinct to intelligent conscious man, the the psychological upset would create the psychosis that we human have experience for thousands of year. But, it was necessary and the price to be paid in our awakening to consciousness. I now have hope that maybe, we will all come out of the cave. I's so excited..

I highly recommend this free video series. I am reading the book **FREEDOM** by Jeremy Griffith which these videos are companions. **It's like having a science based bible and offers a different approach to the human condition of good and evil. Thus far I am simply amazed. I have been searching for this information and knowledge for a long time.**
