Forget about the Vedas, the Upanishads, the Bhagavad Gita, the Tao Te Ching, the Buddhist sutras, the Torah, the Bible and the Koran, and all the religious founders, teachers and sages of the ages, an Australian biologist called Jeremy Griffith has succeeded where all these sacred texts and enlightened teachers have failed, that is, he has discovered the 'end of the human condition' he has brought permanent peace and harmony to planet earth. Surely there's not a single person on earth who can have failed to notice this?

Yes Jack, while religions contain all manner of truths about human life, it is all from a pre-scientific view, and without the clarifying difference between the way the intellect and instincts work that Jeremy is presenting, the human condition could not actually be solved. In fact, this is the fulfilment of a time that all religions and great prophets looked forward to when we could actually explain ourselves. For the growing momentum of support that is already building around the world for Jeremy's breakthrough explanation of the human condition, see www.humancondition.com/transformation/#wtm-centres-launch. We encourage you to pursue your interest at our website www.humancondition.com where there is a feast of other material including 'THE Interview' which Jeremy recently recorded about his book 'FREEDOM'.
